Education

Bachelor of Technology (B.Tech) in Computer Science & Engineering

2021 – 2025

JIS University, Kolkata

CGPA: 8.72

Experience

Full Stack Developer Intern

October 2024 – November 2024

Training Mug

Remote

- Developed **HyRecruitAI**, an AI-integrated Mock Interview Platform using **Next.js, TypeScript, and Tailwind CSS**.
- Refactored 20,000+ lines of code, enhancing efficiency and reducing load time by **50%**, achieving a **98% user satisfaction rating**.
- Implemented RESTful API integrations and optimized state management, improving performance.

Technical Skills

Languages: C++, JavaScript

Framework: React, Node.js, Express.js, RESTful API Design

Developer Tools: Git, Docker, VS Code, Cloudinary, Postman

Database : MongoDB, MySQL

Coursework: Data Structures and Algorithms, Object-Oriented Programming (OOP), DBMS

Projects

Greenstack – E-COMMERCE Website (React, Node.js, MongoDB)

- Designed and developed a responsive e-commerce platform using React and Node.js, focusing on scalability and seamless cross-device compatibility.
- Implemented secure user authentication, a dynamic shopping cart, and efficient brand management features to enhance overall usability and performance.
- Integrated RESTful APIs and optimized system functionality, showcasing strong skills in full-stack development, front-end architecture, and API integration.
- [GitHub Link](#)

MOvFLIX (Next.js, React, REST API)

- Developed a movie recommendation system integrating **OMDB API**.
- Categorized movies based on user preferences, improving recommendation accuracy.
